# LAKE LEATHERWOOD GRAVITY PROJECT

#### Eureka Springs, Arkansas

Welcome to Lake Leatherwood Gravity Project, Northwest Arkansas's premier downhill mountain bike park. LLGP was designed and built by Rock Solid Trail Design in 2018, and features seven DH lines that are sure to impress and challenge riders of all skill levels. Before riding, here are some general things to know about the trails and shuttle service.

- LLGP trails are rated on a relative scale. Therefore, we highly recommend that first time riders start with DH6.
- All trails tend to be smoother at the top, and chunkier at the bottom, so be prepared to encounter a variety of conditions and textures on any given trail.
- ALL major features (drops, gaps, doubles, etc.) have ride arounds. Look for signs that indicate type of feature and direction.

## **SOUTH HUB**

Down Hill 1 | Very Difficult | 1 Miles The Chunky Monkey DH1 offers up steep & technical rock gardens & staircases, as well as a HUGE step-up & lily pad.

Down Hill 2 | More Difficult | 0.56 Miles The OGT

DH2 features one-of-a-kind features top to bottom, including an iconic 8 foot drop.

Down Hill 3 | More Difficult | 0.83 Miles

Anti-Gravity DH3 is perfect for riders who love air. Doubles & gaps abound, as well as a beautifully crafted bridge & 6 foot plank drop.

### **NORTH HUB**

Down Hill 4 | Difficult | 0.82 Miles Flow-Zone DH4 features fast & fun flow at the top & techy rock gardens at the bottom. Don't miss the 5 foot drop mid-way down!

Down Hill 5 | Difficult | 0.81 Miles Warp-Speed DH5 is lightning fast with amazing rock formations & a 5 foot drop.

Down Hill 6 | Easy | 0.95 Miles Berms for Days DH6 is like a rollercoaster, with large sweeping berms, fun tabletop jumps, and just enough chunk at the bottom.

Down Hill 7 | Very Difficult | 0.64 Miles The Drop DH7 is packed with unique features that are not for the faint of heart, including one of the biggest drops in Arkansas.

# **RULES AND** RECOMMENDATIONS

HELMETS ARE MANDATORY! Other protective gear such as gloves, elbow/knee pads, eyewear, etc. are highly recommended.

Ride within your skill level, and when in doubt, scout it out.

Don't ride alone, and bring a phone.

Adhere to all trail closure signs.

Be respectful to other trail users, and always stop for injured riders.

All riders must use tunnel to access Shuttle Pickup.

Park only in designated areas. Parking or self-shuttling is not allowed in lower turnaround. Self-shuttlers must use ballfields lot for pickup.
